

PRODUCT BENEFITS: Klamath Lake Blue Green Algae is harvested directly from the clean mineral-rich waters of Klamath Lake. This pristine lake, nestled in a remote area of the Cascades of Southern Oregon, offers the perfect growth environment for this wild, fresh water algae. Using our own harvesting equipment, we gather the algae, screen it, and it is then FLASH AIR DRIED to protect the algae's delicate cell structure and its unique nutritional profile. This special care allows us to bring you all the whole food benefits of Klamath Lake Blue Green Algae in convenient easy-to-take capsule form.

Directions: For adults, start with one (1) capsule daily, build up to two (2) to six (6) capsules per day. Should be taken with 8 ounces of water in the morning hours, or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
