QNC Longevity Factors™
Cellular Antioxidant Defense

"The body's ability to fight and neutralize free radicals decreases with age, which can increase the risk for DNA, cell and tissue damage. Extra antioxidant support with Longevity Factor[®] Cellular Antioxidant Defense may help protect your body and help you age well." - Joseph Mercola, M.D.

Polyphenols - these powerful antioxidants neutralize free radical damage to help protect healthy DNA, cells and tissues.*

Resveratrol - features 500 mg of trans-resveratrol, a potent antioxidant found in red wine and Japanese knotweed.

Vitamin D-3 - enhances calcium absorption and helps maintain healthy bones.* Emerging research suggests that adequate daily intake of vitamin D may play a role in supporting breast and colon health.*
