

Your liver is responsible for virtually all internal detoxification. **Super Milk Thistle®** not only enhances this process through its positive effects on bile flow, it helps strengthen the liver at a cellular level so it functions at its best when you need it most.*

The patented Phytosome™ technology, which combines one part standardized milk thistle extract with two parts phosphatidylcholine, dramatically improves absorption.* Research indicates Phytosomes are absorbed more effectively than non-Phytosome™ products.* With this enhanced delivery, more of the key compounds get where they're needed most—to the cells in your body.*

Developed in accordance with monograph standards set forth by the German Commission E.

Same great product with more artichoke for even higher levels of liver support.*

Recommendations: One softgel two to three times daily.

If pregnant, nursing, or taking prescription drugs, consult your healthcare practitioner prior to use.

Contains no sugar, salt, yeast, wheat, gluten, corn, dairy products, artificial coloring, artificial flavoring, or preservatives. This product contains natural ingredients; color variations are normal.
