

Easily Assimilated Glucosamine Hydrochloride contains more elemental glucosamine per mg than sulfate forms and is more readily absorbed making it highly effective in promoting healthy joints.*

Sodium Free Nature's Way® FlexMax™ Glucosamine Hydrochloride is preferred by people concerned about high blood pressure because it is free of salts.

Non-Irritating / Stomach Safe The proprietary StomachGuard™ technology utilizes plant fibers to form a protective gel around the tablet upon entering the digestive tract. This natural gel provides a cushioning effect and regulates the release of glucosamine, thus shielding against potential stomach irritation. Nature's Way® FlexMax™ can be comfortably taken at any time of the day, with or without a meal.
