

0 90700 00187 2

and are then promptly extracted.

To assure optimal extraction of Meadowsweet's bioactive compounds, the plants are hand-harvested only while in full flower, are carefully shade-dried and cleaned of superfluous stems, and are then promptly extracted.

We prepare our Meadowsweet Extract from the best & flowering tops of *Filipendula* (*Spiraea*) *ulmaria* plants which are Certified Organically Grown on our own farm.

LIQUID HERBAL EXTRACT
