We prepare our Wild Cherry Extract from the thin, green bark of *Prunus virginiana* trees which are **Certified Organically Grown.** To assure optimal extraction of Wild Cherry's bioactive compounds, the tender, green bark is hand-harvested only in spring or autumn and is carefully shade-dried. To extract the bark's full cherry aroma & flavor, we use our special fermentation/extraction process.

LIQUID HERBAL EXTRACT

WILD CHERRY

Prunus virginiana
Thin Green Bark
