Lactobacillus helveticus-128	
NutraFlora® scFOS (short-chain fructooligosaccharides)	210 mg **

**Daily Value not established.

Other ingredients: Plant-derived capsule, Aqueous enteric-coating (Modified cellulose, Sodium alginate, Stearic acid, Fractionated (non-hydrogenated) coconut oil, Oleic acid), Magnesium stearate

May contain a minimal residual amount of milk or soy protein.

Replenish Microflora with Primadophilus® Optima

Primadophilus® Optima is the most potent (35 billion CFUs) and diverse (14 strains) delivery of probiotics for intestinal microflora.

Why 14 probiotic strains?

- Like a fingerprint, each individual has a unique balance of strains in their microflora
- Primadophilus® Optima provides a broad diversity of strains commonly found in the human digestive tract
- Each strain provides its own unique benefits

Plus NutraFlora® scFOS

- Unique "short-chain" form of FOS
- Preferred food source for microflora
- Promotes microflora growth & colonization*
- More effective than other FOS forms

Importance of Microflora

The "friendly" bacteria of the intestinal tract are essential to good health because they:

- Secrete enzymes to aid proper digestion
- Produce organic compounds that inhibit the reproduction of harmful bacteria
- Boost immune function

Stress, poor diet, antibiotic use and bouts with diarrhea adversely affect microflora.
