SUPPLEMENT FACTS	
Serving Size: 1 Tablet (food grade enteric coated)	
Servings Per Container: 30	
Amount Per 1 Tablet:	%DV
High Grade White Garlic (Allium sativum L.)	275 mg
Standardized to contain 4% alliin (11 mg) (equivalent to 4 grams of fresh garlic) [†]	**
** Daily Value (DV) not established	

Garlic is one of the best known and scientifically proven herbs in the world. It has wide ranging benefits such as heart health, cholesterol balance^{††}, immune defense and critical cellular health. Garlic is a powerhouse of nutrients that can make a real difference in your life. However, it has been a problem to get the full 4 grams of fresh garlic recommended by the authoritative German Commission E for optimal health daily.*

GarliMed™ is the solution to that problem. GarliMed is a fresh garlic extract in an all-natural, food-grade enteric coated tablet that passes through the stomach to dissolve fully in the small intestine. This ensures that the beneficial compounds in garlic (especially alliin) are not weakened by exposure to stomach acid, and eliminates the possibility of garlic breath.

Just 1 tablet of GarliMed, the patented Swiss garlic extract, provides the key compounds equivalent to 4 grams of fresh garlic, standardized to more than 4% alliin. Member of the EuroPharma, Inc. Scientific Advisory Board

[†] Equivalent key compounds in 4 grams of fresh garlic

^{††} Helps maintain healthy cholesterol levels already in the normal range
