To assure optimal quality, the leaves are hand-harvested at their peak of potency and are then promptly heat-dried to stabilize their antioxidant catechins and flavonoids. These leaves are then shipped to our laboratory and thoroughly extracted.

We prepare our Green Tea Glycerite from the young leaves of *Camellia sinensis* plants which are **Certified Organically Grown** on the Ambootia Tea Plantation in Darjeeling, India.

004

HERBAL GLYCERITE EXTRACT
