To assure thorough extraction of Uva-Ursi's bioactive compounds, the leaves are hand-harvested at their optimal potency, are carefully shade-dried & cleaned of superfluous stems, and are then promptly extracted.

We prepare our Uva-Ursi Extract from the leaf of *Arctostaphylos uva-ursi* shrubs which are Custom Wildcrafted™ in their natural wild habitat or Certified Organically Grown.

005

LIQUID HERBAL EXTRACT

UVA-URSI

Arctostaphylos uva-ursi
