

CODE 0265 V6

Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Persons with thyroid disease (hyperthyroidism), melanoma, or those taking MAO inhibitors or other mood altering medications should seek the advice of a physician before consuming this product. Keep out of reach of children.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

L-Tyrosine is a conditionally indispensable amino acid required for the production of the neurotransmitters dopamine, adrenaline, and norepinephrine, as well as for the skin pigment, melanin. Norepinephrine (norepinephrine) and adrenaline (epinephrine) are the main actors in the body's response to acute stress and, along with dopamine, help to support a positive mood and mental alertness. In addition, L-Tyrosine is especially critical for the normal function of the thyroid gland.*

SUGGESTED USAGE: As a dietary supplement, take 1/4 teaspoon in juice or water, preferably between meals, 1 to 3 times daily.

L-Tyrosine

NEUROTRANSMITTER SUPPORT

Pure Powder

- Pharmaceutical Grade
- Healthy Glandular Function
- Supports Mental Alertness*

Net Wt. 4 oz. (113 g)
