

TestostroGROW 2 HP may provide the essential precursors to the hormone testosterone. Increased levels of testosterone may increase lean muscle mass, muscle size and strength. Chrysin is added to prevent the natural tendency of the body to convert increased levels of testosterone to estrogen.

Recommended dose: Take 1 tablet 3 times daily, preferably with meals. **TestostroGROW 2 HP** should be used for 21 days straight, followed by a 7 day layoff. This cycle should be repeated 3 times. This should be followed by a 3 to 4 week layoff before repeating program.

Warning: This product is not intended for use by those with a serious medical condition or pregnant or lactating women. Consult your physician before use.

Tamper Resistant: Do not use if seal under cap is broken or missing.

Keep out of reach of children.

Store in a cool dry place.
