

Targeted Release™ for Superior Effectiveness

Fisol's unique enteric coating ensures the following key benefits not found in uncoated fish oil supplements:

- ✓ **Proper release** in the intestines, not in the stomach
- ✓ **3x better absorption** by the body than non-enteric coated fish oils meaning more EPA/DHA gets into your system
- ✓ **No fishy repeat** (burp-back), fishy breath or gastrointestinal discomfort
- ✓ **Small effective dose** because of superior absorption

Guaranteed Purity

- ✓ **Molecularly distilled**
- ✓ **Free of contaminants** including testing of pesticides, herbicides, PCBs, dioxins and heavy metals such as mercury

Delivers up to
3X better absorption
than non-coated
fish oil

SOFTGELS

- **Clinical Potency**
500 mg (30% EPA, 20% DHA)
 - **Molecularly Distilled**
 - **Mercury-Free & no PCBs**
- DIETARY SUPPLEMENT

Fisol®

TARGETED RELEASE™

Recommended Dose: Take 1 FISOL® softgel up to three times daily with water. Because FISOL® is enteric-coated and better absorbed by the body, its required dosage is less than taking non-coated fish oil.

Supplement Facts

Serving Size 1 Softgel
Servings Per Container 45

Amount Per Serving	% Daily Value	
Calories	5	
Total Fat	0.5 g	<1%†

TARGETED RELEASE™

Fisol®

Enteric-Coated
Premium Fish Oil

High Potency Omega-3s

FISOL® contains a pure, highly concentrated cold water fish oil with 50% omega-3 essential fatty acids:

- 30% EPA (eicosapentaenoic acid)
- 20% DHA (docosahexaenoic acid)

Helps Reduce Risk of Heart Disease

Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease (see nutrition information for total fat content).

Additional Benefits

Research confirms the important role of omega-3 fatty acids in maintaining healthy blood triglyceride levels, as well as supporting the heart, skin and joints.*

Doctor Developed

FISOL® supplements are professionally designed to be the most effective and easily tolerated delivery of EPA and DHA from premium fish oil—and uniquely feature the proprietary Targeted Release™ enteric-coating technology.
