**Daily value not established

► **Directions** As a dietary supplement, take one (1) scoop daily mixed into a cool beverage of your choice approximately one hour after eating. Keep out of reach of children. Store in a cool dry place. **REFRIGERATE AFTER OPENING**

PACran™ provides a unique class of proanthocyanidins that is clinically shown to resist adhesion of unwelcome bacteria in the urinary tract. Good probiotic bacteria dominate the urinary and urogenital flora. Specific probiotics benefit healthy urogenital systems by inhibiting pathogenic bacteria. They resist attachment of undesirable bacteria, and/or produce hydrogen peroxide, lactic acid and other natural substances, which retard growth of potentially harmful bacteria. Probiotics plus PACran™ may help maintain healthy urogenital microflora.*

► **Also Available** in Vegetable Capsules, 30 count (UBC)
