*Daily Value Not Established

► **GLYCEMIC VIBRANCE H** is a blend of concentrated natural foods rich in trace nutrients, polyphenols, essential minerals, carnitine, plant extracts and antioxidants recognized to help in the maintenance of normal blood glucose levels.*

► **Directions** One, two or three times each day, or as directed by a health professional, mix one level scoop (enclosed) of Glycemic Vibrance H into six (6) or more ounces of cool blueberry leaf tea, water or diluted juice of your choice, and drink. This product can be taken at any time of day, either with or between meals. Keep out of reach of children. Store in a cool dry place.

► **NOTE** Control of blood sugar is highly individualized. Effective dosage can vary among persons. This product may be used with or in place of Glycemic Vibrance H Capsules.

WARNING: Glycemic Vibrance H (GLH) may improve insulin efficiency. Diabetics on insulin should consult their doctor before taking GLH, and monitor blood glucose carefully when using GLH. You may need to adjust personal insulin dosages to compensate for improved utilization. DO NOT exceed three (3) scoops per day except on the advice of your health professional.*

*This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

► Glycemic Vibrance H™ is manufactured at an FDA registered, cGMP, NSF, and Organic certified facility.
