Lichi™

Super Fruit Diet

Lychee is a fruit native to Asia. During the Tang Dynasty (618 – 907 A.D.) the Emperor Li Longji was so obsessed with the power of the Lychee that he had this remarkable fruit sent daily from the southern city of Canton by his Imperial courier to his palace 600 miles away. Messengers would work in shifts, day and night, to provide a constant supply of this fantastic fruit to the emperor and his royal concubine, who was known to be one of the four beauties of Ancient China.
