

 MINAMI NUTRITION®

PLUSEPA® is a premium Omega-3 supplement utilizing dual supercritical CO₂ extraction technology that delivers 500mg of EPA in a convenient, once daily serving.

PLUSEPA® offers a clean, pure oil with no fishy aftertaste.

Advanced Omega-3 research suggests a high concentration of EPA can support cognitive function, mood, immune system and cardiovascular health.[†]

Cold processed. Smart choice.

Dual Supercritical CO₂ extraction utilizes less heat during the concentration process than the leading brands—the typical process can expose heat-sensitive oils to temperatures as high as 400° F. Liquid CO₂, an organic compound, takes the place of typically-used harsh chemical solvents.

Minami also offers one of the highest concentrated Omega-3 fish oils on the market, which means more Omega-3 nutrition, no fillers and fewer softgels to take—now that is smart.

For every bottle sold a donation will be made to NPF, National Parkinson Foundation. www.parkinson.org
