PRODUCT INFORMATION One tablet typically provides: Vitamin C Thiamin (vitamin B1) Riboflavin (vitamin B2) Niacin (vitamin B3) Vitamin B6 Folic acid Vitamin B12 Biotin Pantothenic acid (vitamin B5) Magnesium (from True Food* nutrient, Lithothamnion calcarea & magnesium citrate) Choline Inositol Lins Bioflavonoids Lithos Bio	20mg 5mg 5mg NE 10mg NE 10mg 200µg 300µg 300µg 300mg 10mg 10mg 10mg 8mg v 2009 values)	%RD 4 3 1 7 7 1 2 6 5
Pantothenic acid (vitamin B5) Magnesium (from True Food* nutrient, Lithothamion calcarea & magnesium citrate) Choline Inositol PABA Citrus Bioflavonoids	30mg 24mg 10mg 10mg 10mg 8mg	

TRUE FOOD® B COMPLEX also contains B vitamins, betaglucans, glutathione, choline, inositol, amino acids and other phytonutrients naturally found in fermented food cultures of Saccharomyces cerevisiae (food yeast). DOES NOT CONTAIN: sugar, salt, wheat, gluten, lactose, dairy products, artificial preservatives, colours or flavourings,

Saccharomyces cerevisiae is grown in a non GM soya-based medium. The yeast cell walls are gently pre-digested and broken down with enzymes from pineapple and papaya fruit to release the nutrients within each cell.

Some people have an allergic response to yeast but the allergen, which causes an allergic response, is a protein on the yeast cell wall and when broken down the protein's ability to evoke an allergic response is largely lost.

Suitable for vegetarians and vegans.

This product is not tested on animals. This bottle has a UV filter.

TBC090

B vitamins & vitamin C with magnesium

DIRECTIONS: Adults and children over 8 years, take 1 tablet a day, with or between meals, or as your health professional advises. Do not exceed recommended daily intake. Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.

B vitamins may turn urine bright vellow - this is normal. Fermentation is a very special process forming natural organic bonds and loose complexes which are then digested by enzymes for optimum bioavailability. The active nutrients are added to a completed fermentation of the culture Saccharomyces cerevisiae. As a guide, 1 tablet is comparable in effect to 75 - 100mg strength of standard B Complex supplements

INGREDIENTS: Proprietary mixture: magnesium chloride, niacinamide, calcium pantothenate, ascorbic acid, biotin, pyridoxine HCl, riboflavin, choline, inositol, PABA, thiamine HCl, folic acid, cyanocobalamin, with enzyme digested S.cerevisiae (with soya); natural Lithothamnion calcarea, magnesium citrate, anti-caking agent: stearic acid\*; coating: methylcellulose (glycerine); flow agent: magnesium stearate\*; anti-caking agent: silicon dioxide; bulking agent: ethyl cellulose; natural vanilla flavour (sweetener: agave syrup; flavour: vanilla extract; colour: caramel). \*(vegetarian source)

TBC-098-02

Oranges are used during the fermentation process.

Keep out of reach of children. Ensure lid is tight and store in a cool, dry, steam-free environment as damp conditions can affect the product quality.
