This product is not tested on animals.

Charitable organisations policy: supplements regularly donated

HIGHER NATURE®

Active Marine Collagen COLLAGEN DRINK with hyaluronic acid & vitamin C

70g

**GRANULES
FOOD SUPPLEMENT**

NEW, IMPROVED FLAVOUR

COLLAGEN DRINK 70g granules

with hyaluronic acid & vitamin C

DIRECTIONS: Adults, mix half a scoop to a smooth paste with a small amount of chilled water or juice (ideally orange, pineapple, grapefruit, cloudy apple or pear), then add more water or juice, stirring all the time until dissolved (approximately one minute) before drinking. May also be sprinkled directly onto yoghurt, muesli and cereals, savoury dishes or soup and stirred to blend. Take with or between meals (30 minutes before or 2 hours after meals), or before bed, or as your health professional advises.

Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.

Collagen is the major protein that supports firm skin. However, researchers believe that after the age of 30 we may lose up to 1.5% of our body's collagen each year. Hyaluronic acid plays an important part in the body's water maintenance by binding water molecules to tissue, especially in the skin. **HIGHER NATURE'S COLLAGEN DRINK** provides pure marine collagen, hydrolysed for easy absorption, plus hyaluronic acid, as a nutritional supplement for skin. Contains scoop. Contents may settle during transit and scoop may sink to the bottom.

Keep out of reach of children. Ensure lid is tight and store in a cool, dry, steam-free environment as damp conditions can affect the product quality.
