

VITAMIN CODE®

DOES YOUR LIQUID MULTI HAVE THE CODE?

The RAW Food-Created Nutrients™ in Vitamin Code® formulas are individually cultivated with their unique Code Factors™ intact, enabling natural recognition of nutrients by your body.

WHAT IS A CODE FACTOR™?

The known, and yet to be discovered synergistic compounds found in food and necessary for proper nutrient delivery. Providing these Code Factors™ infuses the essential elements of whole foods that the body thrives upon.

Feed your body with **Vitamin Code® Liquid**, a comprehensive multivitamin formula made with **RAW Whole Food Vitamins and Minerals**—providing targeted delivery of essential vitamins and minerals for extraordinary health and vitality.*

Your body is designed to recognize and utilize nutrients best when they come from food. Each individual nutrient delivered to your body from food comes intact with its own specific and unique cofactors that tell your body where and how to utilize that nutrient. When vitamins or minerals are isolated from food or synthesized in a lab, their cofactors can be removed, inhibiting their ability to effectively nourish your body. While a diet rich in RAW, whole foods is the best way to consume nutrients, if you are going to supplement, you should seek out a whole food liquid multivitamin formula with **RAW Whole Food Vitamins and Minerals**.

Go beyond vitamins and minerals with **Vitamin Code® Liquid**. You only get one body, so feed it nutrients as nature intended.
