powerful antioxidant formula

DIRECTIONS: Adults and children over 8 years, take 2 capsules a day, with a meal, or as your health professional advises. Do not exceed recommended daily intake. Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle. Best absorbed when taken with a meal containing olive (or other vegetable) oil.

Astaxanthin – a powerful antioxidant. Astaxanthin is one of the most powerful natural antioxidants available; for example, researchers have found that it may be more powerful than Vitamin E, Beta Carotene and Lutein. Astaxanthin is responsible for the pink pigment in salmon and other fish and rustacea. However, **Higher Nature's** natural, vegetarian astaxanthin comes from the alga, *Haematococcus pluvialis*. **Blackcurrants** are an excellent source of antioxidant anthocyanidins, polyphenols and vitamin C. Their potency may be three times greater than blueberries.

This bottle has a UV filter.

Keep out of reach of children. Ensure lid is tight and store in a cool, dry, steam-free environment as damp conditions can affect the product quality.
