BODY FORTRESS® SUPER ADVANCED WHEY PROTEIN

Body Fortress® Super Advanced Whey Protein delivers a powerful blend of Premium Whey Protein and Lean Mass Activators that athletes need to help build muscle and crush their workouts.◊

Body Fortress® Super Advanced Whey Protein features a Super Recovery Blend to further enhance the benefits of our premium Whey Protein. Each scoop provides high quality Creatine Monohydrate, to help increase Raw Strength and Power plus L-Glutamine and Taurine, the two most abundant free amino acids found in muscle.◊

WHAT MAKES BODY FORTRESS® SUPER ADVANCED WHEY PROTEIN WORTH IT:

The combination of potent ingredients within the Super Recovery Blend is important for athletes since it allows for faster recovery during high-intensity workouts and creates a more powerful muscle-building formula than normal whey protein.◊ Not only will the Super Recovery Blend help recharge muscle energy stores, but it may help decrease fatigue during exercise as well so you can keep training hard.◊

• Body Fortress® Super Advanced Whey Protein provides cross-flow, Ultrafiltered Whey Protein Concentrate.

• State-of-the-art manufacturing processes are used to retain the active Whey Protein Peptides and Microfractions that help deliver Whey's superior benefits.◊

• Premium Whey Proteins for easy mixing and complete dispersion in liquid.

• Quick absorbing blend to speed amino acid delivery to muscles immediately after workouts (to help stimulate protein synthesis and recovery).◊

• Contains naturally occurring Branched Chain Amino Acids from protein.

3 scoops contain over 12 grams of the following Branched Chain Amino Acids:

Which typically provides:

• Isoleucine	3.32 g
• Leucine	5.55 g
• Valine	3.12 g

Whey is the preferred protein source in sports and bodybuilding nutrition because it contains superior quality Branched Chain Amino Acids — made up of Leucine, Isoleucine and Valine — which are important for the maintenance of muscle tissue.◊ Unlike some other incomplete protein sources, Body Fortress® Super Advanced Whey Protein contains all of the essential amino acids required for supporting lean muscle and exercise recovery.◊
