

****Supportive but not conclusive research shows that consumption of EPA and DHA Omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of Fish Oil provides 600 mg total of EPA, DHA and other omega-3 fatty acids. See nutrition information for total fat, saturated fat and cholesterol content.**

Odorless Fish Oil contains EPA and DHA, which help support and maintain the health of your cardiovascular and circulatory system.* Omega-3 fatty acids are considered some of the "good" fats and help maintain triglyceride levels already within a normal range.* Odorless Fish Oil is enteric coated, therefore minimizing annoying fish burps and aftertaste. Nature's Bounty Fish Oil is purified to eliminate heavy metal contaminants such as mercury, PCBs and dioxins.

WARNING: If you are pregnant, nursing, taking any medications, planning any medical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store at room temperature. Do not use if seal under cap is broken or missing.
