"Why *You* Should Use ProV60®!"

Founder, Labrada Nutrition

ProV60® is the "Original" Time-Release protein blend which thousands of top athletes depend on and trust for their lean muscle building and strength needs. That's because **ProV60®** contains precise combinations of slow, intermediate, and fast digesting proteins for maximum quality and all day muscle protein synthesis, suppressed muscle protein breakdown, and reduced recovery time after a workout. **ProV60®** accomplishes this with an advanced, precision blend of micro-ultrafiltered whey protein isolate, ion exchanged whey protein isolate, micro-ultrafiltered whey protein concentrate, agglomerated egg albumin, and long acting casein. The amino acid profile in **ProV60®** is unsurpassed for building lean muscle and is high in critical branch-chain amino acids and glutamine.

Typical Amino Acid Profile per 100g serving (2 scoops)

Alanine	2944 mg	Histidine	1076 mg	Proline	3302 mg
Arginine	1364 mg	Isoleucine	1148 mg	Serine	2800 mg
Aspartate	6318 mg	Leucine	6482 mg	Threonine	3804 mg
Cystine	1436 mg	Lysine	5384 mg	Tryptophan	1006 mg
Glutamate	7250 mg	Methionine	1220 mg	Tyrosine	1794 mg
Glycine	2800 mg	Phenylatanine	2010 mg	Valine	3446 mg

Labrada Nutrition protects the integrity of these amino acids with extreme care utilizing the modern protein technology of ion-exchange and cold ultra-filtration techniques. The result is the highest quality, most bio-available protein on the market today. Unlike other protein powders, **ProV60®** is NOT made using high temperatures or acidic conditions which destroy many of the beneficial amino acids and protein micro fractions. **ProV60®**, with its award-winning taste, and industry leading mixability, is easily the most scientifically advanced protein blend ever developed.

Build lean muscle and get stronger with ProV60®!
