110% Greater Power Increase in 8 Weeks.
 Feel the Power with the 1st Dose!

Get Explosive Workouts!

Enhance Strength, Energy, Endurance & Mental Focus

SuperCharge® provides you with all of the best performance-enhancing supplements, in one easy-to-use, concentrated daily dose!

- **Increases Strength and Power** – Super Charge® has been shown in a University study to increase power by up to 110%*** and exercise repetitions performed by up to 39%***
- **Increases Blood Flow to Muscles** – Super Charge® contains powerful nitric oxide (NO) boosters to dilate arteries and increase muscle pumps.
- **Increases Endurance** – Super Charge® contains CarnoSyn® to increase muscle carnitine stores, resulting in up to a 29% increase in endurance performance****
- **Enhances mental focus during exercise** – Super Charge® contains tyrosine and caffeine to improve mental focus up to 82%, for peak performance***
- **Delays Fatigue** – Super Charge® contains Pikatropin™ to fight fatigue, so you can exercise longer.
- **Jump Starts Recovery** – Super Charge® contains PepForm® branched chain amino acids and L-acetyl-L-glutamine to protect against muscle breakdown and improve post-workout recovery.

What's NEW in Super Charge® Xtreme 4.0:

- Super Charge® is Now Artificial Color FREE
- **PepForm® BCAA 2:1:1** are free form branched chain amino acids (BCAA) bound to BCAA peptides. Recover Faster!
- **CreaLean®** is pure, pharmaceutical-grade creatine monohydrate to help you build strength faster!
- **PowerCarb®** is an engineered carbohydrate that supports nutrient transport and sustains energy. Workout longer!

STERIOD FREE.
 Safe for High School
 and College Athletes.

Super Charge® is made in a steroid and performance free, FDA-inspected, pharmaceutical-grade manufacturing facility. This product is pure and unadulterated, and will not cause a positive test result for banned substances.

UNIVERSITY TESTED***

***8-week study conducted at the University of Kansas in 2010. 50 former male subjects were separated into two groups. Both groups were put on an effective weight training program and made significant gains. However, the group using Super Charge® Xtreme 4.0 prior to training gained significantly more muscle mass. The BCT group showed increases in total power that were 110% greater than the control group. The BCT group also experienced bench press increases that were 39% greater than the control group.

***Clinical study conducted by Human Performance Specialists, Tempe, Arizona, in 2006. Study conducted on test subjects taking one dose of Super Charge® before one workout, compared to control group. The BCT group reported an 82% increase in pre-workout mental energy and a 39% increase in bench press reps.

****June 2004, JUNE 2006, Smith et al.
