

ALLMAX
NUTRITION90%
PURE PROTEIN
IN EVERY SCOOP

THE MOST TRUSTED NAME IN PROTEIN

ISOFLEX is an Ultra-High Quality Whey Protein Isolate Delivery System Formula containing a 90% pure (bioactive) protein in every scoop. ISOFLEX by ALLMAX has earned the trust of protein lovers everywhere. ISOFLEX **does not contain** whey protein concentrate. As a result, ISOFLEX contains 0.5 g of fat and only 1 g of sugar, and is 98% lactose-free. ISOFLEX delivers exceptional protein quality that mixes easily and tastes incredible. ISOFLEX is produced in a pharmaceutically-licensed, air-pressure sealed cGMP facility; ensuring that the protein has been produced under the purest and cleanest conditions possible. ALLMAX ISOFLEX has been infused with 4 proprietary complexes, exclusive to ALLMAX, designed to further increase delivery and absorption:

- WPI Complex [WPI⁹⁷ FORTIFIED™]:** CTP™ (Cold Temperature Process), cross-flow microfiltered whey protein isolate, WPI⁹⁷ (97% Whey Protein Isolate) and Synermune™ Colostrum, a natural source of EGF, IGF-1 (growth factor).
- NOS Complex [ULTRA-FLOW DELIVERY™]:** Contains L-Arginine, folic acid, and N-acetyl-cysteine. Designed to increase blood flow and increase Nitrogen and Whey peptide delivery.
- Glutamine Complex [GLUTAMAX TECHNOLOGY™]:** Naturally occurring glutamine peptides. Designed to improve recovery and immune support.
- IS Complex [RAPID ABSORPTION™]:** Alpha Lipoic Acid (ALA), d-Pinitol and 4-Hydroxyisoleucine. Designed to increase protein uptake through insulin support.
- Cold Temperature Processing Technology [CTP™]:** Our exclusive Cold Temperature Process (CTP™) employs a truly unique protein extraction technology that suspends pure protein fractions in their native state thereby eliminating the need for harsh chemicals and denaturing heat. This process allows ISOFLEX to have an exceptionally high protein yield while maintaining essential bioactive components and extraordinary protein macrofractions (as seen by the chart below).

ISOFLEX is an aspartame-free, non-GMO, gluten-free, instantized protein which mixes easily and contains growth factors, a natural source of IGF-1 and EGF.

ALLMAX QUALITY GUARANTEE: ALLMAX Products are produced at a pharmaceutically licensed manufacturing facility ensuring product quality and integrity. Every ingredient added and every lot produced is independently lab tested for purity and potency ensuring consistent quality every time.

Contains aspartame, sucralose and lactulose

DELIVERY

ISOFLEX, an Ultra-Pure Protein as indicated by these extraordinary Bioactive Full-Spectrum Whey Isolate Macrofractions:

Beta-Lactoglobulin	57.0 %
Alpha-Lactalbumin	18.0 %
Glycomacropeptide	17.5 %
Immunoglobulin	3.0 %
Bovine Serum Albumin	3.0 %
EGF	2.0 %
IGF-1	1.0 %
Lactoferrin	0.2 %

INGREDIENTS: Whey Protein Isolate Complex [Whey Protein Isolate, WPI⁹⁷ (Hydrolyzed Whey Protein Isolate), Alpha-Lactalbumin-Rich Whey Peptides, Synermune™ Colostrum], NOS Complex [L-Arginine, Folic Acid, NAC], Glutamine Complex [Glutamine peptides], IS Complex [Alpha Lipoic Acid, d-Pinitol, 4-Hydroxyisoleucine], real vanilla beans, natural and artificial flavor, lactoferrin, acesulfame-potassium, sucralose, guar gum.

SUGGESTED USE: Mix or shake 1 scoop (30 grams) with 150 mL (6 oz, 3/4 of a cup) of water, milk or juice. May use up to 8 scoops per day.

Amino Acid Profile per serving (30 g)

L-Alanine	1377 mg
L-Arginine	567 mg
L-Aspartic Acid	2835 mg
L-Cystine	648 mg
L-Glutamic Acid	4617 mg
L-Glycine	432 mg
L-Histidine	432 mg
L-Hydroxyproline	27 mg
L-Isoleucine	† ‡ 1674 mg
L-Leucine	† ‡ 2889 mg
L-Lysine	‡ 2997 mg
L-Methionine	‡ 594 mg
L-Phenylalanine	‡ 756 mg
L-Proline	1485 mg
L-Serine	1188 mg
L-Threonine	‡ 1755 mg
L-Tryptophan	‡ 459 mg
L-Tyrosine	756 mg
L-Valine	† ‡ 1512 mg

TOTAL 27000 mg

† Branch Chain Amino Acids (BCAA)
‡ Essential Amino Acids (EAA)
