

THE EMERGENCE OF A DOMINANT MUSCLE BUILDER*

Groundbreaking DNA Gene Chip Analysis has revealed the precise mechanism that triggers unprecedented 3.5 times greater muscle cell growth.

SHOCKING MUSCLE GROWTH RESEARCH IS WITHIN REACH

New science has revealed that mTor-p70S6k is the trigger directly responsible for extreme muscle growth. Branched Chain Amino Acids (BCAAs) were identified to activate increased mTor-p70S6k cellular signaling responsible for profound muscle gain. **Activation of the muscle cell growth signals increased by 350%** (3.5 times greater) with 8,180 mg (8.18 g) of 45% Leucine, 30% Valine and 25% Isoleucine, fermentation-derived and pharmaceutical-grade BCAAs.*

IS ORAL SUPPLEMENTATION EFFECTIVE?

That's great in a lab, but if I take it, will it work? The answer is definitively, yes! Oral liquid supplementation of 8.18 g at a 45:30:25 ratio of BCAAs boosted BCAA concentration in the blood and in muscle cells and activated the mTor-p70S6k anabolic signal. This confirms that drinking your BCAAs (as in AMINOCORE) in a soluble liquid form replicates the research! You can literally implement this groundbreaking technology TODAY!

A MUSCLE CELL SAVED IS A MUSCLE CELL EARNED

The mechanism behind AMINOCORE's ability to prevent catabolic muscle loss has been discovered. Molecules called MAFbx and MuRF-1 increase dramatically during training. They lock on to muscle cells and act like a shredder, literally destroying muscle tissue. AMINOCORE to the rescue. The gene chip analysis showed a dramatic decline in the number of MAFbx & MuRF-1 with 8.18 g BCAAs. This is the number one reason that many people who hit the gym cannot gain or hang on to significant muscle size.*

INTELLIGENT DIETING SUPPORT

Caloric restriction, limiting carbs and increased cardio intensity; all essential for effective dieting, and all rapid ways to breakdown and flush away muscle. Muscle breakdown takes place when you're dieting. Less muscle reduces your metabolism and as a result, your ability to burn calories. AMINOCORE™ feeds your muscles while dieting and dramatically limits muscle loss. The net effect; you retain muscle, melt fat and maintain a higher metabolism. AMINOCORE™ the dieting secret you've been looking for.*

Produced in an NSF Certified Facility

Informed-Choice Certified

Tested by HFL Sport Science as Free of WADA Banned Substances

100% Free of Artificial Colors and Dyes

*Combined with intense resistance training, research has shown that 8,180 mg of BCAA in a 45:30:25 ratio increase signaling within muscle cells to upregulate protein synthesis (growth) by 350%. Research conducted at the Nobel Prize winning Karolinska Institute in Stockholm, Sweden. Journal reference: Karlsson et al. Am J Physiol Endocrinol Metab 287: E1-E7, 2004.

ALL BCAAs ARE NOT CREATED EQUAL!

Comparing one BCAA to the other? Look closely at the formula – does it include glutamine passed off as real BCAAs? Glutamine has its place, but it is NOT a Branched Chain Amino Acid (BCAA). AMINOCORE™ is a pharma-grade, 100% pure, fermented, 45:30:25 ratio BCAA drink. With added Ketoisocaproic acid (KIC) to further enhance the buffering of lactic acid (muscle toxin) and increase the levels of L-Leucine at the site of muscle. AMINOCORE contains additional highly bioavailable B-Vitamins not only enhance the anabolic environment, they help to release additional metabolic energy.

Other non-Instantized BCAAs foam up when you shake them and leave a nasty oily film. AMINOCORE™ is clean and soluble. The taste is so exceptionally good you'll want to drink it when you're not working out! With science this good, research this compelling in a product that is so heavily engineered, you know that you have a winner.

Sweetened with acesulfame potassium and sucralose.

INSTANTIZED BCAA

AMINOCORE™

MYOTRISOL[™]
SOLUBLE BCAA TECHNOLOGY

9 G SCOOP INSIDE

350% INCREASED MUSCLE GROWTH*

8 GRAMS SOLUBLE BCAA

B VITAMINS & ALPHA K.I.C.

0g SUGAR 8g BCAAs 0g CARBS

44 SERVINGS!
NET WT 14.1 OZ (400 G)

DIETARY SUPPLEMENT

FRUIT PUNCH BLAST

NATURAL & ARTIFICIAL FLAVORS

GET THE ANABOLIC EDGE!

AMINOCORE™ is the ultimate supplement to take during every workout for rapid anabolic growth. Zero banned ingredients & 100% legal; a pure side-effect free anabolic solution.* Taken during intense training, AMINOCORE™ immediately increases your body's ability to build hard, lean muscle through 2 primary processes:

1. Increases Anabolic Muscle-Building Signaling by 350%* ;
2. Reduces the Breakdown of Muscle Tissue During Intense Workouts*.

MYOTRISOL™ 3-PHASE SOLUBILITY TREATMENT: High-dosage BCAA technology with the highest-grade, freeze-dried BCAAs and with an unmatched taste makes AMINOCORE™ an EASY-TO-MIX drink that you can take to every workout.

Supplement Facts

Serving Size: 1 scoop (9 g) Servings Per Container: 44

Amount Per Serving	% DV**
Calories	10
Total Carbohydrate	0 g 0%
Sugars	0 g
Vitamin B3 (as Niacin)	20 mg 100%
Vitamin B6 (as Pyridoxine HCl & Pyridoxal-5'-Phosphate [P5P])	2 mg 100%
Vitamin B9 BioB9™ (as Calcium L-5-Methyltetrahydrofolate & Folic Acid)	400 mcg 100%
Vitamin B12 (as Methylcobalamin & Dibenzoide)	6 mcg 100%
AMINOCORE™ BCAAs [45:30:25]	8,180 mg †
L-LEUCINE [45%]	3,681 mg
L-VALINE [30%]	2,454 mg
L-ISOLEUCINE [25%]	2,045 mg
α-KIC (Alpha Ketoisocaproic Acid)	100 mg †

** Percent Daily Value (DV) based on a 2,000 calorie diet

† Daily Value not established

Other Ingredients: Acesulfame Potassium, Sucralose, Natural & Artificial Fruit Punch and Strawberry Flavors, Citric Acid, Silicon Dioxide.

DIRECTIONS: To activate protein synthesis and increase muscle recovery, take 1 scoop of AMINOCORE™ during weight training or any athletic event. On non-training days, AMINOCORE can be taken anytime on an empty stomach. Mix 1 scoop into a 16.9 oz (500 ml) bottle of water or a tall glass of water (2 cups). Shake or stir well. Take during workouts. Carefully read instructions on label and follow directions before use.

WARNINGS: Use only as directed. Not recommended for persons under 18 years of age unless prescribed by a healthcare professional. People sensitive to Vitamin B3 (Niacin) may experience flushing of the skin that is generally mild and transient. Do not use if you have any pre-existing medical conditions; if you are chronically ill; if you are pregnant or breastfeeding; taking prescription medication or over-the-counter drugs. Discontinue use if you experience any adverse reaction. Keep out of reach of children and pets.

ALLERGEN WARNING: Produced in a facility that also handles Milk, Soy and Shellfish products.
