

Fight back with Colostrum Plus®!

Your immune defense system gets depleted as you age. Colostrum Plus® adds back antibodies and immune factors for dual action in the bloodstream and also in the GI tract. It helps maintain a robust intestinal lining and promote healthy intestinal flora. Its growth factors enhance stamina and support normal re-growth of tissue and lean muscle. Clinical studies show wide ranging health benefits and demonstrate the superiority of Colostrum Plus®.*

Symbiotics guarantees minimums of 1.5% Lactoferrin (12mg), 25% Immunoglobulins (200mg Ig), and 3% Proline-Rich Polypeptides (24mg PRP), colostrum's most important component. Our unique Bio-lipid® coating insures bio-availability. Without this protection, other colostrum products can be destroyed by stomach acids and offer limited benefit.

Colostrum Plus® comes from USDA Grade A dairies that are hormone, pesticide, antibiotic and rBST free. We use only the first 2 milkings to guarantee potency and quality.

Quality and Purity Guaranteed - We guarantee that this product meets the highest standards of quality, purity and freshness. Each bottle is safety sealed with an outer neckband. Do not use if neckband is broken or missing.
