

IMMUNE FACTORS*

Symbiotics® Lactoferrin-Colostrum Plus® is a powerful immune formula to help your body fight back! Lactoferrin offers superior iron-binding action to rob fuel from foreign cells while delivering iron to body cells in need. It prevents free radical formation, enhances oxygenation of tissues and supports white blood cell activity.

Colostrum Plus® adds back antibodies and immune factors for dual action in the bloodstream and also in the GI tract. Colostrum Plus® delivers 233 mg of Ig (Immunoglobulins) plus 28 mg of PRP's (Proline-Rich Polypeptides), an immune modulator and Colostrum's most important component. Our unique Bio-lipid® coating insures bio-availability. Without this protective layer, other Colostrum products can be destroyed by stomach acids and offer limited benefit.

Colostrum Plus® comes from USDA Grade A dairies that are hormone, pesticide, antibiotic and rBST free. We use only the first 2 milkings to guarantee potency and quality.

Quality and Purity Guaranteed - We guarantee that this product meets the highest standards of quality, purity and freshness. Each bottle is safety sealed with an outer neckband. Do not use if neckband is broken or missing.
