

YOUR SINGLE SOLUTION FOR COMMON SYMPTOMS OF MENOPAUSE

WHAT AMBEREN DOES: Fluctuating hormones are the main cause of symptoms commonly associated with menopause. Amberen is clinically shown to promote hormonal balance safely and naturally.

HOW IT WORKS: Amberen supports the body's hormonal function that produces and balances your own hormones.

WHY AMBEREN: Amberen is backed by two double blind, placebo controlled clinical trials and over 40 years of research. Amberen does not contain any soy, plant estrogens, black cohosh, or synthetic hormones.

 **87% Of Women Say Amberen Works!™**
