

Our advanced formula offers a unique three pronged testosterone boosting formula with a forth prong that has prostate protective factors.

Prong 1: Hormone Releasing X Complex: Specific amino acids have been shown to induce production of growth hormone. L-Arginine increases levels of growth hormone in the body. Also accelerates tissue repair to reduce recovery time following an injury. L-Ornithine increases human growth hormone levels. Also helps reduce fatigue following exercise.

Prong 2: Testosterone Boosting X Complex: Testofen® 600mg per day- Published clinical studies* show it supports free testosterone levels, helps maintain muscle mass and supports reduction in body fat.

Prong 3: Natural Factors X Complex: Tribulus terrestris has been used in traditional Chinese and Indian Ayurvedic medicine to help with stronger, more frequent erections, higher volume of ejaculate and improved muscular density.

Prong 4: Prostate Safety X Complex: Increasing testosterone can also cause prostate growth so this prong is an added protection for men over 40. Saw palmetto supports prostate and urinary health in men. Beta sitosterol can bind to the prostate and reduce inflammation. Bioperine-maximizes absorption and increases bioavailability.

Testofen®

HERBAL
DIETARY SUPPLEMENT

45
CAPSULES

Directions: Take one (1) capsule three (3) times a day. For maximum effectiveness, this product should be used daily.

Caution: FOR MEN ONLY. Not to be taken by those under 18 years of age, or those with hormone-related cancers. Use as directed. If you are using any prescription drug, or have a medical condition, consult your doctor before using this product. Discontinue use two weeks prior to surgery. If erection last longer than 4 hours, please consult your physician. KEEP OUT OF REACH OF CHILDREN.

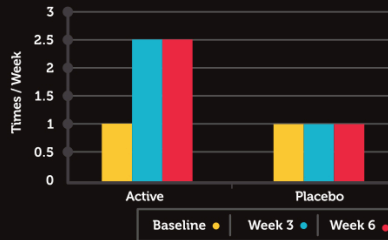

Additional Benefits: Increased energy and libido. Assists in forming lean body mass.

Also: Use for a minimum of two months. For best results continue using daily.

Testofen® clinical studies show that men using the recommended dose went from having sex once a week to 2.5 times a week, after 3 weeks of use.

Frequency of Sexual Intercourse
