

All-natural way to achieve full length and girth. A just-in-time product best used 45 minutes before a romantic interlude.

Continuous Nitric Oxide Factors: L-Arginine and L-Citrulline are renewable sources of L-Arginine via the L-Arginine/L-Citrulline conversion pathway and therefore supplies even more L-Arginine for activation of the Nitric Oxide pathway for greater blood engorgement of the penis leading to longer and more intense erections and orgasms.

Yohimbe: Precursor to Nitric Oxide, key substance needed to augment blood flow to the genitals for stiffer, harder erections.

Tribulus Terrestris: Helps with stronger, more frequent erections, higher volumes of ejaculate and improved muscular density.

Maca: Used in South American medicine and known historically to boost libido, sexual stamina and energy.

Long Jack Extract: Stimulates sexual desire and activity by having an androgenic effect by increasing testosterone in men.

Tongkat Ali: Boosts testosterone levels, contributing to optimal fullness and firmness.

Siberian Ginseng: Herbal stimulant which heightens energy, enhances performance, desire and intensity of orgasm.

Epimedium: Adaptogen which helps increase Nitric Oxide production which amplifies blood flow to the pelvic region resulting in firmer, stronger erections.
