

Q-Sorb™ Coenzyme Q-10 supports heart health and energy production.* As an antioxidant, it helps fight cell-damaging free radicals in the body.* In addition, statin drugs can reduce Co Q-10 levels in the body. Co Q-10 can replenish what Statin drugs can deplete. Note: Coenzyme Q-10 is not intended to serve as a replacement for Statin therapy, nor should you discontinue taking any prescribed medications while supplementing with Co Q-10.
