

MT THE MOST POWERFUL SUPPLEMENTS ON EARTH.™

At MuscleTech®, our researchers are passionate about supplements. Our mission is to develop the most scientifically advanced and effective supplements to help you build muscle and strength, lose weight, and improve athletic performance. Thanks to our millions of loyal customers, we are fortunate to be the most-awarded and best-selling sports nutrition brand over the past 20 years.

Many supplement companies do not disclose their ingredients, and don't invest in science and research, or quality control. We are different. MuscleTech® invests millions in product research and development, and quality control – and our supplement facts always tell you EXACTLY what you are getting: The Most Powerful Supplements on Earth!

MuscleTech® is the Leader in Science with a Multi-Million Dollar Research Budget –

A portion of every dollar spent on MuscleTech® supplements is allocated toward scientific research to discover new and more effective ways to increase lean muscle and strength, and improve athletic performance. In fact, Team MuscleTech® researchers have collaborated with researchers at over 20 universities and research facilities around the world to study the various key ingredients found in our powerful formulas.

Platinum 100% Glutamine – Platinum 100% Glutamine supplies 5g of glutamine per serving, which works to rapidly replenish the glutamine used during training. Glutamine is the most abundant non-essential free amino acid in your body – more than 20% of the total circulating amino acids in your body are glutamine. Your muscles are especially high in glutamine, making it extremely important for muscle metabolism. When you're training hard, your muscles can lose up to 50% of their glutamine stores, so you need to replace them – fast!*

Glutamine helps your body control catabolism by acting as a free nitrogen donor to help your muscles build the other amino acids they need to recover quickly. Glutamine also helps support increased cell volume, glycogen replenishment, and protein synthesis. Platinum 100% Glutamine is perfectly tasteless and odorless, and mixes effortlessly on its own or into any other product you're already using. This non-stimulant formula stacks perfectly and can be used day or night.*
