

MT THE MOST POWERFUL SUPPLEMENTS ON EARTH.™

At MuscleTech®, our researchers are passionate about supplements. Our mission is to develop the most scientifically advanced and effective supplements to help you build muscle and strength, lose weight, and improve athletic performance. Thanks to our millions of loyal customers, we are fortunate to be the most-awarded and best-selling sports nutrition brand over the past 20 years.

Many supplement companies do not disclose their ingredients, and don't invest in science and research, or quality control. We are different. MuscleTech® invests millions in product research and development, and quality control – and our supplement facts always tell you EXACTLY what you are getting: The Most Powerful Supplements on Earth!

MuscleTech® is the Leader in Science with a Multi-Million Dollar Research Budget – A portion of every dollar spent on MuscleTech® supplements is allocated toward scientific research to discover new and more effective ways to increase lean muscle and strength, and improve athletic performance. In fact, Team MuscleTech® researchers have collaborated with researchers at over 20 universities and research facilities around the world to study the various key ingredients found in our powerful formulas.

Platinum 100% Betaine – Platinum 100% Betaine is the world's most advanced betaine formula. Each daily dose of betaine delivered in this formula provides the scientifically studied dose of betaine that helped test subjects gain an amazing 3.75 lbs. of lean muscle in 6 weeks. What's more, test subjects actually increased their arm size by 9%, as measured by a cross-sectional area (49.5 to 54.1cm²). Platinum 100% Betaine also delivers a scientifically researched dose of nitrates with added betaine nitrate – something you can only find in Platinum 100% Betaine. Our formula provides 350mg of nitrates per day – a dose shown to scientifically improve muscle oxygen utilization and endurance for improved exercise performance.
