

PRODUCT BENEFITS: PhysiLogics' EPA/DHA softgels deliver the long-chain polyunsaturated fatty acids Eicosapentaenoic Acid (EPA) and Docosahexaenoic acid (DHA) to support circulatory and metabolic health.* Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. See nutrition information for total fat content.

Molecularly distilled to remove Mercury, PCBs and other heavy metal contaminants.

Directions: For adults, take one (1) softgel daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.

WARNING: If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.
