

PRODUCT BENEFITS: Co Q-10 supports healthy cardiovascular and circulatory function and acts as a powerful antioxidant.* Essential for energy production at the cellular level, it also helps recycle Vitamin E in the body.*

Statin drugs can reduce Co Q-10 levels in the body. Co Q-10 can replenish what Statin drugs can deplete. Note: Coenzyme Q-10 is not intended to serve as a replacement for Statin therapy, nor should you discontinue taking any prescribed medications while supplementing with Co Q-10.

Directions: For adults, take one (1) capsule daily, preferably with a meal or follow the advice of your health care professional. As a reminder, discuss the supplements and medications you take with your health care providers.
