

ARTH-9 is a scientifically designed formula that provides essential nutrients for bone, joint, ligament and cartilage function.*

This unique formula includes glucosamine sulfate, a natural compound present in joint cartilage. This aminomonosaccharide has been shown to play an integral role in maintaining healthy connective tissue and cartilage.* ARTH-9 is fortified with vitamin C, calcium and zinc l-monomethionine to aid in tissue repair,* bromelain to help maintain joint flexibility* and chondroitin sulfate, another important component of articular cartilage.

Contains no yeast, dairy, eggs, gluten, corn, soy or wheat, sugar, starch, salt, preservatives or artificial color, flavor or fragrance. The gelatin capsules are hypoallergenic.

* This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
