

****Supportive but not conclusive research shows that consumption of EPA and DHA Omega-3 fatty acids may reduce the risk of coronary heart disease. One serving of Nature's Bounty Fish Oil provides 300 mg total of EPA, DHA and other omega-3 fatty acids. See nutrition information for total fat and cholesterol content.**

Fish oil contains EPA and DHA, two Omega-3 fatty acids that help support and maintain the health of your cardiovascular system and circulatory system.* Omega-3 fatty acids are considered one of the "good" fats, and help maintain triglyceride levels already within a normal range.* Nature's Bounty Fish Oil is purified to eliminate heavy metal contaminants such as mercury, PCBs and dioxins.

WARNING: If you are pregnant, nursing, taking any medications, planning any medical procedure or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store at room temperature. Do not use if seal under cap is broken or missing.
