"DHEA is important to support health; however DHEA levels decline as the body matures. Mega Men® DHEA Vitapak® Program supplies DHEA with saw palmetto for prostate health, a multivitamin and an energy enhancer for total nutritional support."

MEGA MEN® DHEA VITAPAK®

GNC Mega Men® DHEA Vitapak® Program is a complete nutritional plan that provides men over 40 with a convenient way to achieve their daily nutritional goals. Each pack includes:

- **Mega Men®** – Our premium timed-release, clinically studied formula^ includes vitamins and minerals to supplement key nutrients that may be missing in your daily diet. Mega Men® contains 1,600 IU of vitamin D-3 for colon health and immune support, as well as B-vitamins that are important for cardiovascular health and energy production.* It is enhanced with a broad spectrum of cell-protecting antioxidant nutrients that aid in boosting immunity.*
- **Saw Palmetto Formula** – A blend of special ingredients, including pygeum, lycopene and saw palmetto to help support prostate health and normal, healthy urinary flow.* This formula also contains zinc which is required for normal reproductive function.*
- **Energy Formula** – This metabolism enhancing formula combines standardized guarana with panax ginseng, rhodiola and yerba mate. In addition to boosting energy levels, this formula also supports mental alertness.*
- **DHEA 25** – DHEA (Dehydroepiandrosterone) is one of the most abundant hormones produced in the body and is a precursor to other hormones. As with most hormones, the production of DHEA increases during pre-pubescent years, but as the body matures levels begin to decline.
