If you're serious about performance and results, you need the ALL-NEW MuscleTech® Performance Series!

NO Proprietary Blends NO Underdosed Key Ingredients NO Banned Substances NO Fillers NO Hype NO Exceptions

Just the Most Powerful Formulas Available

The Most Powerful Creatine Musclebuilder Ever Developed CELL-TECH" is a scientifically engineered hardcore creatine formula designed for hardgainers who have trouble putting on size and strength. This patent-protected creatine formula contains core ingredients supported by over 30 research studies conducted over multiple decades, CELL-TECH

is packed with powerful musclebuilding ingredients and is formulated to deliver: Faster Muscle Growth Each two-scoop serving of CELL-TECH" delivers 7 grams of HPLC-certified creatine monohydrate and 3 grams of creating HCI Subjects who consumed the amount of creatine and carbohydrates supplied during the CELL-TECH" loading stage (see directions) gained, on average. 3.4 pounds of muscle in 7 days. Subjects taking creatine

with juice gained only 0.8 pounds. A Increased Strength In another study, subjects taking the amount of creatine and carbohydrates found in two scoops of CELL-TECH" significantly increased their strength on the bench press.

leg press, and biceos curl. A

 Enhanced Nutrient Transport Each two-scoop serving of CELL-TECH" includes 200mg of the powerful compound alpha lippic acid (ALA). Research suggests that ALA helps improve the absorption of creatine and plucose into the muscle cell through specialized transporters. *

 More Muscle Size and Fullness CELL-TECH" delivers a multi-stage combination of carbohydrates that forces a powerful insulin spike post-workout. This helps shuttle creatine and other nutrients into the muscle and rapidly replenishes glycogen stores, facilitating glycogen supercompensation and an intense muscle-expanding effect. A

A clinical study revealed that the use of CELL-TECH" did not lead to the down regulation of creatine transporters. This allows athletes to continue to benefit from creatine use instead of cycling on and off. A

Branched Chain and

Cell-Volumizing Amino Acids In addition to its key musclebuilding ingredients, CFLL-TECH supplies the branched chain amino acids Lileurine Livaline and L-isoleucine in a 2:1:1 ratio. Branched chain amino acids are free-form amino acids - singular molecules that are quickly digested and absorbed into the bloodstream. CELL-TECH" also contains the amino acids taurine and alanine. These free-form amino acids are two of the most

abundant aming acids in muscle and aid in cell volumization. Get More for Your Money Unlike the competition. Performance Series products contain superior key ingredients in clinically dosed amounts that are

fully disclosed so you know exactly what you are paying for. Rest-in-Class Taste

CELL-TECH™ was flavored by one of the world's too flavoring houses by leading flavor experts in order to taste better than any other creatine powder on the market
