

SCIENTIFICALLY ADVANCED NEXT-GENERATION SUPER-AMINO COMPLEX

Alpha Amino Prototype 216™ is the result of a relentless quest by a team of researchers to develop a fast and powerful method of triggering anabolic activation. Alpha Amino Prototype 216™ is engineered with a cutting-edge combination and dosage of amino acids, in the precise amounts designed to increase free intracellular amino-acid levels in direct proportion to their respective requirements for protein synthesis.▲

KEY AMINO ACID MATRIX DELIVERS AMINO ACIDS TO MUSCLES

▲In a third-party scientific study conducted at the University of Texas Medical Branch, the key amino acid matrix in Alpha Amino Prototype 216™ was shown to increase a marker of protein synthesis (phenylalanine) by 216% more than baseline. This is critical because protein synthesis is ultimately what leads to muscle growth. The researchers carefully studied six subjects and employed a very precise method of testing done by drawing and analyzing blood from these subjects 60 minutes after ingestion and immediately following intense exercise. Furthermore, elevated phenylalanine uptake was also observed by researchers from blood samples taken at the subsequent blood drawing an hour later, indicating muscle protein synthesis was still occurring at the cellular level.▲

UNIVERSITY TESTED & DOCUMENTED ANABOLIC RESULTS

▲In a university study in which data from six subjects were analyzed, the key amino acid matrix in Alpha Amino Prototype 216™ was shown to increase a marker of protein synthesis (phenylalanine) by 216% more than baseline in just one dose!▲

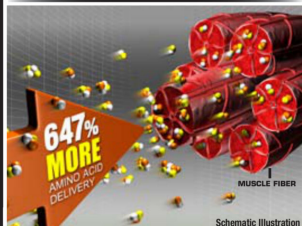

THE POWER OF ALPHA AMINO PROTOTYPE 216™

◆In the same scientific study, researchers discovered that test subjects who consumed a key complex in the Alpha Amino Prototype 216™ formula before intense training increased blood amino acid delivery directly to muscles by 647% more than baseline! These results were later published in the *American Journal of Physiology – Endocrinology and Metabolism*. Featuring advanced Micro-Dispersion Technology for rapid release, Alpha Amino Prototype 216™ is a powerful, precision-engineered amino acid formula from Team MuscleTech researchers.▲

POWERED BY A SCIENTIFICALLY ADVANCED, CUTTING-EDGE AMINO ACID COMPLEX

The Alpha Amino Prototype 216™ formula is protected by U.S. patent #5,719,119. The potent amino acids found in Alpha Amino Prototype 216™ include essential aminos, conditionally essential aminos, non-essential aminos and precision ratio branched chain aminos. This combination has resulted in what is unquestionably a scientifically advanced, super-amino complex.▲

INCREASED AMINO ACID DELIVERY

▲The same test subjects who consumed a key complex in the Alpha Amino Prototype 216™ formula before intense training increased blood amino acid delivery directly to muscles by 647% more than baseline!▲

DIETARY SUPPLEMENT

Supplement Facts

Serving Size 6 Caplets
Servings Per Container 20

Amount Per Serving	% Daily Value
Alpha Amino Prototype 216™ 7,020 mg †	Chain Reaction (Precision Ratio Branched Chain Matrix) †
MyoExpand (Amino Acid Complex) †	L-leucine †
L-lysine HCl †	L-valine †
L-phenylalanine †	L-isoleucine †
L-threonine †	ErgoForce (Clinical Max-Strength Amplifier) †
L-histidine †	Taurine †
L-glutamine †	Inulin (as Cichorium intybus) (root) †
L-lysine aspartate †	Inosine anhydrous †
L-methionine †	AKG (alpha-ketoglutarate acid) †
L-proline †	L-cornithine AKG †
L-cysteine HCl anhydrous †	L-cornithine HCl †
L-tyrosine †	L-glutamic acid †
L-arginine pyroglutamate †	L-alanine †
	L-aspartic acid †
	L-arginine †
	Calcium alpha-keto-isocaproate dihydrate †

† Daily Value not established.

OTHER INGREDIENTS: MICROCRYSTALLINE CELLULOSE, HYDROXYPROPYLCELLULOSE, MAGNESIUM STEARATE, COATING (POLYVINYL ALCOHOL, POLYETHYLENE GLYCOL, FD&C YELLOW NO. 6, TALC, TITANIUM DIOXIDE), STEARIC ACID, SILICON DIOXIDE, CARBOXYMETHYLCELLULOSE SODIUM, CROSCOLLON, ACESULFAME-POTASSIUM. CONTAINS SOY INGREDIENTS.

DIRECTIONS: Take 1 serving (6 caplets) of Alpha Amino Prototype 216™ 15 minutes before your workout with your favorite sports drink. Read the entire label before use and follow directions provided.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Do not use if you have had a myocardial infarction (heart attack). Discontinue use and consult a medical doctor if you experience unusual symptoms. Consult a medical doctor before use if you have been treated for or diagnosed with or have a family history of any medical condition, or if you are using any prescription or over-the-counter drugs(s), including blood thinners. Consult a medical doctor before starting any diet or exercise program. Do not exceed recommended serving. Improper use of this product will not improve results and is not advised. Use only as directed. Do not refrigerate. Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F). KEEP OUT OF REACH OF CHILDREN.
