fuel:one™

Clinically Dosed for More Muscle

750MG
phosphatidic acid

4 WEEK
supply

PHOSPHA BUILD fuels your one with scientifically tested phosphatidic acid.

¹This clinically tested compound has been shown in clinical research to double muscle gains in test subjects compared to a placebo. In fact, these test subjects gained 5.3 lbs. of muscle and increased their strength on the leg press by 60% more than subjects using a placebo in just 8 weeks.*

²In a separate phase of the same study, pre-clinical research showed that phosphatidic acid increased mTOR signalling by over 6 times compared to baseline.*

³What's more, **PHOSPHA BUILD** is also powered by a tested dose of tart cherry, shown in emerging research to support recovery and fight catabolism. Use **PHOSPHA BUILD** every day to provide both anabolic and anti-catabolic power. **PHOSPHA BUILD** delivers the musclebuilding factors you need to get big, and the anti-catabolic factors you need to stay that way - whatever life throws at you.*

We fuel your one.

Every athlete has their one goal. Whether it's one more workout, one more rep, one more ride, or one more win - *we fuel your one.*

The fuel:one™ standard.
