

EPIQ™ is a line of powerful, effective, and guaranteed clean supplements formulated for elite athletes who demand the highest quality for EPIQ™ performance.

EPIQ™ Guaranteed Supplements are:

- Free of banned substances
- Free of artificial colors or dyes
- Free of harmful impurities
- Free of undecayed ingredients
- Developed with a scientifically researched key ingredient
- Manufactured according to current Good Manufacturing Practices (cGMP) standards, as is required for all dietary supplements
- Made in the U.S.A. from international ingredients

EPIQ™ PHOSPHATIDIC ACID – 100% Ultra-Pure Formula

What you're holding in your hands is one of the most exciting new muscle and strength compounds ever researched!

EPIQ™ PHOSPHATIDIC ACID contains a clinically studied musclebuilding compound that can **DOUBLE** your training results. Yes, you read that right – **DOUBLE** the gains! Want proof?

*In a recent study at the University of Tampa on 28 resistance-trained subjects, those who trained 3 times a week and took phosphatidic acid for 8 weeks actually **DOUBLED** the amount of muscle they gained compared to subjects following the same training protocol, but who were taking a placebo. What's more, EPIQ™ PHOSPHATIDIC ACID gives you the most bioavailable form of oral phosphatidic acid, and it keeps your level of phosphatidic acid raised for hours! It's time to truly experience results from your hard work in the gym. Start maximizing your musclebuilding potential with EPIQ™ PHOSPHATIDIC ACID!*

What Makes the Formula EPIQ™?

- Each serving of EPIQ™ PHOSPHATIDIC ACID delivers 750mg of the world's most pure phosphatidic acid in just one serving!
- *In an 8-week clinical study published in *Nutrition & Metabolism*, resistance-trained subjects taking phosphatidic acid achieved a 100% greater increase in lean body mass and increased 1-rep max leg press by 60% more than subjects using a placebo.*
- *In a separate phase of the same study, pre-clinical research showed that phosphatidic acid increased mTOR signalling by over 6 times compared to baseline.*
