

GNC BEYOND RAW® RE-BUILT MASS – Feed your hunger for size, strength and power with this 700 calorie, super-anabolic, 60g multi-phase protein mass gainer engineered with 7 clean, maltodextrin-free carbohydrate sources, an advanced creatine complex and testosterone support to help you pack on size. This extreme hardcore mass gainer features the most advanced new supplementation methodology in sports nutrition, the Physiobolic Edge. This new system is based off the latest research that targets the following 7 Primal Physiogenic Factors influencing the strength and size you battle to achieve:

- Anabolic Hormones
- Muscle Cell Energy
- Muscle Cell Protection & Recovery
- Water Regulation
- Carbohydrate Metabolism
- Mental Intensity & Neuro Priming
- Anabolic Primers

No matter your body type, optimal macronutrients and **Anabolic Primers** fuel your mammoth muscles during hardcore bulking. That's why we re-engineered this lean muscle formula to contain 80g of our most intelligent, high-octane carbohydrates, coming from 7 maltodextrin-free sources such as potato starch, oat flour, waxy maize starch, wheat grass powder and buckwheat. As you strive to transform your body into an all-out muscle-building machine, these high-octane energy sources support your body's **Carbohydrate Metabolism** with immediate and sustained fuel along with 60g of fast, medium and slow digesting proteins. Together and with other key ingredients, this potent formula also targets two powerful **Anabolic Hormones** – insulin and testosterone – both necessary for fueling lean, dense, bulging muscles and extreme anabolism.*

Magnifying your gains also takes earth-shattering strength and power training, which is supported with **Muscle Cell Energy**. That's exactly why the **ANABOLIC POWER & STRENGTH MAXIMIZER** is packed with the Advanced Creatine Complex comprised of a 5-source, 10g creatine blend with creatine precursors, 6.2g of leucine and 2.5g of betaine to provide mTOR triggered muscle protein synthesis. In addition, combine these ingredients along with the **TESTOSTERONE SUPPORT MATRIX** consisting of 600mg of Testofen® fenugreek, opuntia and HMB to fuel your body as you work toward achieving undeniable gains in the gym.

Our advanced manufacturing process allows us to optimize the active compounds in this formula to give you what you need to beast through plateaus. This super-concentrated gainer also contains potent electrolytes to help maintain **Water Regulation** and improve hydration working alongside other hardcore ingredients that support **Neuro Priming**. Plus, the fast-acting antioxidant complex helps shield your hard-earned gains with intensive **Muscle Cell Protection & Recovery**.*

GNC BEYOND RAW® RE-BUILT MASS provides superior building blocks for hyper-intelligent lean-bulking. Now the rest is up to you. Prepare yourself. Experience the difference. Go beyond hardcore – get **BEYOND RAW**!†

PHYSIOBOLIC EDGE The Physiobolic Edge is the advanced, performance-based technology powering the science behind GNC BEYOND

RAW with more than best-in-class, cutting-edge ingredients. This new, research-based system advances molecular functions not yet targeted by other products by synchronizing with vital physiological mechanisms and genetic pathways before, during and after extreme workouts that unleash your maximum muscle-mind-body potential. This powerful addition gives hardcore sports nutrition a new meaning: physiogenic performance fuel as you push for a physique like never before, muscle-maximizing size, explosive strength and power.† The Physiobolic Edge targets the exact 10 factors that open the door to extreme results.

Defined by our expert scientists as the "genesis of the Physiobolic Edge," the following **10 Primal Physiogenic Factors** are what you need to support extreme training results.

- Anabolic Hormones
- Muscle Cell Energy
- N.O. Pumps
- Muscle Cell Protection & Recovery
- Fat Metabolism
- Carbohydrate Metabolism
- Increased Calorie Burning
- Water Regulation
- Mental Intensity & Neuro Priming
- Anabolic Primers
