

DARK MATTER ZERO CARB CONCENTRATE
Carb-Free Hyper-Anabolic Post-Workout
Muscle Growth Accelerator*

Stimulates Muscle Building Protein Synthesis* • Spikes Insulin Without Sugar and Carbs*
 Faster Absorption Than Whey • Helps Maximize Creatine Uptake & Glycogen Replenishment*

DARK MATTER ZERO CARB CONCENTRATE represents a major breakthrough in zero carb, sugar free, post-workout supplementation. This anabolic muscle growth accelerator is formulated especially for athletes who are restricting carbs and sugars from their diet, yet want to optimize the post-workout anabolic window to stimulate muscle growth and recovery. DARK MATTER ZERO CARB CONCENTRATE employs ProSYNTHAGEN® Peptide, a potent combination of anabolic and insulinotropic amino acids and oligopeptides with a high concentration of glutamine peptides. Research shows that this combination has powerful effects on stimulating protein synthesis, the release of insulin and replenishment of glutamine – all of which play a critical role in enhanced muscle growth. DARK MATTER ZERO CARB CONCENTRATE also contains a multi-source creatine/glycerol complex for enhanced muscle volumizing and bioenergetic creatine loading and ATP replenishment into muscle tissue. To further enhance anabolic activation, DARK MATTER ZERO CARB CONCENTRATE's insulin amplifiers and optimizers help improve insulin signaling and sensitivity for increased anabolic action, nutrient transport, protein synthesis, creatine/nutrient uptake and glycogen replenishment.*

Every Workout Ends with DARK MATTER...

DARK MATTER ZERO CARB CONCENTRATE is the result of the latest research on how to elicit post-workout protein synthesis, ATP replenishment and insulin spiking without using loads of carbs or sugar. Taking DARK MATTER ZERO CARB CONCENTRATE immediately after your workout will help create a favorable muscle building environment so you can get the most out of your workouts and be your best.*

DARK MATTER Hyper-Anabolic Growth Accelerator Matrix* 9,000 mg ‡

ProSYNTHAGEN® Peptide: Protein Synthesis Accelerator [full spectrum oligopeptide amino acids from wheat protein hydrolysate (containing 30% glutamine peptides), 10:1:1 BCAA complex (L-leucine, L-isoleucine, L-valine) and L-phenylalanine]. **HydroSIZE®: Multi-Phase Creatine Transport and Cell Volumizing Matrix** [creatine monohydrate, Creatine Magnapower® (as magnesium creatine chelate), creatine gluconate and glycerol monostearate.] **AMP Insulin Amplifiers** [4-hydroxyisoleucine, C3G (cyanidin-3-glucoside) from black rice extract, guanidinopropionic acid, chromium picolinate].

† Percent Daily Values are based on a 2,000 calorie diet. ‡ Daily Value not established.

Other ingredients: Malic acid, citric acid, natural flavors, acesulfame potassium, sucralose, Red 40 and Blue 1.

+ Based on 2 scoops.
 Diabetics should consult with their physician before using.

- Keep out of reach of children.
- Store at 10°-30°C (50°-86°F).
- Protect from heat, light and moisture.
- Do not purchase if seal is broken.
