We know that you are performance driven, whether that be to improve lean body mass or compete at a higher level. Dymatize developed the new PerformanceDriven line with your goals in mind via Pre, Intra and Post training support.[†]

Dymatize M•P•S is designed to accelerate your fitness gains by both triggering muscle protein synthesis (anabolism) and minimizing muscle protein breakdown in response to training (catabolism) for faster recovery.[†] One scoop post workout is all you need.

- 7g of instantly soluble BCAAs (2:1:1 ratio) which provides enough L-Leucine to trigger muscle protein synthesis for faster muscle rebuild, recovery and growth[†]
- Added HICA & KIC (Leucine metabolites) further support muscle protein synthesis and help limit muscle protein breakdown caused by strenuous training[†]
- 2.4g of whey protein isolate supports muscle protein synthesis[†]

Great tasting and refreshing, M•P•S is the perfect muscle builder to take after your workouts.[†]
