DIRECTIONS:

As a dietary supplement, adults take one serving (3 Capsules), twice daily or as recommended by a licensed physician. Do not exceed maximum dosage within a 24 hour period. Do not take for more than 4 consecutive weeks with a 2 to 4 week washout period between cycles.

WARNING:

Seek advice from a physician before consuming this product. Consult your physician prior to use if you are taking medication. Do not exceed recommended dosage. Do not use if you are prone to dehydration or exposed to excessive heat. Do not take this product if you have prostate hypertrophy, liver disease, kidney or heart disease, or are being treated for any medical condition. This product should not be taken by women. In particular, those women who are pregnant, lactating or trying to become pregnant, should not take this product. Do not take this product if you have been diagnosed with elevated cholesterol, prostate cancer, testicular cancer or breast cancer. Reduce or discontinue use of this product if sleeplessness, tremors, dizziness, nervousness, headaches, or heart palpitations occur. This product is only intended for use by healthy adults 18 years of age or older. Discontinue use two weeks prior to surgery. Keep out of reach of children and pets. Store in a cool dry place away from direct sunlight. Do not take for more than 4 consecutive weeks with a 2 to 4 week washout period between cycles. Consumer is responsible and assumes all risks, liabilities, and consequences related to the use of this product, including compliance with the rules and regulations of all governing bodies or other entities having jurisdiction over any sport or athletic activity in which he/she participates, as well as any career regulations. Caffeine warning: The recommended serving of this product contains approximately as much caffeine as two cups of coffee. Do not consume caffeine, or combine with synephrine, including but not limited to coffee, tea, soda and other dietary supplements or medications containing phenylephrine or caffeine. Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heartbeat. Discontinue use if you experience dizziness, severe headache, rapid heartbeat or shortness of breath.
