Dagger®HP is a unique hybrid formula that has been suggested to promote circulating testosterone levels.* The components presented in Dagger®HP may turn any average training session into a high-powered, explosive workout.* With three grams of D-Aspartic Acid in each serving, Dagger®HP supports the release and synthesis of luteinizing hormone (LH) and may promote endogenous levels of testosterone during training.* The patented version of agmatine sulfate, Agmax®, has been suggested to enhance nitric oxide synthesis and oxygen uptake in the working muscles.* To help further support testosterone levels, Vitex Agnus Castus has been included which may help to minimize estrogen levels within the body and may further support luteinizing hormone release.* In combination with the fat-incinerating effects of Calcium D-Glucarate and L-Carnitine Tartrate, Dagger®HP has been suggested to systematically set you up for the most effective workout.*

DIRECTIONS:

On workout days take one serving (one scoop) with 6 to 8 ounces of water on an empty stomach approximately 20 minutes prior to training. Do not exceed one scoop before training or in a 24-hour period. On non-training days take one serving (one scoop) with 6 to 8 ounces of water on an empty stomach. With cycling 3000 mg/day of d-aspartic acid should not be consumed for more than 4 consecutive weeks with a 2 to 4 week washout period between cycles.

WARNING:

WARNING: Do not exceed recommended dose. Consult your physician prior to using this product if you are pregnant, nursing, taking medication, under 18 years of age or have a medical condition including but not limited to high or low blood pressure, cardiac arrhythmia, stroke, heart, liver, kidney or thyroid disease, seizure disorder, psychiatric disease, diabetes, difficulty urinating due to prostate enlargement or if you are taking an MAO inhibitor (MAOI). Dose: With cycling 3000 mg/day of d-aspartic acid should not be consumed for more than 4 consecutive weeks with a 2 to 4 week washout period between cycles. Discontinue use two weeks prior to surgery. Discontinue use immediately if you experience any adverse reaction and consult your physician. Do not use if tamper resistant seal is broken. KEEP OUT OF REACH OF CHILDREN. Store in a cool, dry place and avoid excessive heat.
