

PRE FIGHT™ provides all of the essential components necessary to fully prepare you for any type of battle.* Fighters must be properly fueled when taking on a challenge, and **PRE FIGHT™**, brought to you by **Fighter's Power™** makes certain that you are battle-ready for every workout.*

Your muscles must be hydrated and engorged with glycogen—the currency that fuels the workout.* Included are precise ratios of simple carbohydrates, the formulators of **PRE FIGHT™** believed to help provide short range and sustained energy.* A blend of high quality creatine is present to help fuel training muscles.* Nitric oxide levels must be peaked to help deliver oxygen, minerals and performance enhancing ingredients to the demanding muscles.* Electrolytes, along with a hydration matrix are present to help you stay in the fight.* Furthermore, an additional component has been added to help buffer the acidic environment that becomes prevalent with intense training.* Together, these ingredients are believed to help make **PRE FIGHT™** more effective the longer it is used, as intra-muscular concentrations of carnosine increase with each use.* Whether it be a challenge in the cage or overcoming the demands of everyday life: You're a fighter.

Life is a Fight, Train to Win.™

PRE FIGHT™ HIGHLIGHTS

- Provides Explosive Power*
- ATP Resynthesis*
- Electrolyte Support*
- N.O. Potentiators*
- Lactic Acid Buffers*
- Energy Focus Hydration*
